EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 92, line 1, delete "withdrawn" and insert --original--.

2. The following is an examiner's statement of reasons for allowance: Upon reconsideration in light of Applicant's Amendments to the claims and arguments presented in the paper filed February 2, 2005, the prior art rejections are now being withdrawn. No prior art was found to show or suggest a method for forming a fastener product by laminating an elastically stretchable sheet material to base portions of spaced apart molten resin introduced into separate groups of fixed mold cavities in a rotating mold to form hook elements having molded free end portions directed generally back toward base layer portions where by applying tension to the fastener product being formed, the molded hook element s are pulled from the fixed mold cavities to form an elastically stretchable web product.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

3. Previously withdrawn claim 92 is now being rejoined and fully examined for patentability under 37 CFR 1.104.

Information Disclosure Statement

4. The information disclosure statement filed February 2, 2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. Consequently, the non-English Patents have been crossed off the Information Disclosure Statement.

Double Patenting

5. The provisional Obviousness-type Double Patenting rejections over 10/271494 and 10/803682 are now being withdrawn.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gladys JP Corcoran whose telephone number is (571) 272-1214. The examiner can normally be reached on M-F 8am-5:30pm (alternate Fridays off).

Art Unit: 1733

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Blaine Copenheaver can be reached on (571) 272-1156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
